Office Action Summary	Application No. 10/712,163	Applicant(s) WILKINS ET AL.	
	Examiner Arun S. Phasge	Art Unit 1795	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

Claims 15-21, 33-36 and 52 are rejoined with the elected claims. Claims 37-38, 41-45, 48 and 50 stand as being non-elected, in particular for the means plus function which would be different from the structure recited in the elected claim or the method claims having the claimed function.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 103

Claims 15-21, 25-36 and 52 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gadini in view of Gaysowski of record for reasons of record.

The newly rejoined claims are rejected for the same reasons as used to reject the prior elected claims, because the claims recite the positively charged flow regulator or valve positioned downstream of the concentrating compartment.

Response to Arguments

Applicant's arguments filed 5/27/08 have been fully considered but they are not persuasive.

Applicants argue against the combination by stating that the Gaysowski patent does not apply a positive charge to a valve but instead teaches energizing the solenoid of a valve. The fact that Gaysowski uses the application of the charge to a portion of the valve would read upon the structure recited within the apparatus claims.

Applicants further argue that the function of the structure recited in the claims is different than the function of the structure of the prior art, i.e., that the application of the current generates hydrogen ions in a fluid. A claim drawn to apparatus must distinguish in terms of structure." *Ex parte Forsyth et al.*, 151 U.S.P.Q. 55.

Accordingly, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the disclosure of the Gadini patent with the teachings of Gaysowski, because the Gaysowski patent teaches the use of the positively charged valve to allow the controlled removal of water from an electrochemical device.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
